

## ENTERPRISE CAPABILITIES PROSPECTUS

# Engineering High-Velocity Operational Ecosystems

How OmmNoMi transforms static business processes into automated, self-sustaining digital engines.

Targeted Solutions for: Multi-Branch Academies · Field Research Operations · Growing SMEs · Scaling Enterprises

## From Solo Freelance Builds to Enterprise Operational Partner

2-Year Milestone Narrative

When I first began building automation systems for our earliest clients, my mandate was focused: eliminating agonizing spreadsheet bottlenecks, writing custom AppSheet workflows, and giving business leaders back hours of their day.

Over the past 24 months, **OmmNoMi Automation** has matured into a full-scale operational engineering partner. Today, we don't just deliver standalone code—we engineer native Frappe Framework ERPs, deploy trained remote operational squads, manage multi-tenant cloud security, and take 100% operator ownership of your business continuity.

### OUR 24-MONTH OPERATIONAL TRANSFORMATION

#### YEAR 01 · INDEPENDENT DEVELOPMENT

##### Rapid Scripting & AppSheet Workflows

Solving spreadsheet bottlenecks, automating notifications, and delivering custom standalone business apps.

#### YEAR 02 · OPERATIONAL PARTNER

##### Full-Stack Enterprise Operational Ecosystems

Turnkey ERP builds, managed remote ops squads, cloud governance, and guaranteed operational continuity.

## The 4 Pillars of OmmNoMi

Our unified operational architecture designed to eliminate friction across software, people, and cloud infrastructure.

### PILLAR 01

#### AutomateFlow

Custom ERP & Automation

Native Frappe Framework & AppSheet applications engineered around your exact SOPs to eliminate clerical latency.

- ✓ Custom Frappe & ERPNext Development
- ✓ Enterprise AppSheet Multi-Tenant Builds
- ✓ Zero Redundant Manual Spreadsheet Entry
- ✓ Automated Multi-Branch Invoicing & Billing
- ✓ Real-Time Relational Executive Dashboards
- ✓ Webhook & Third-Party API Integrations
- ✓ Strict Role-Based User Access Governance

### PILLAR 02

#### RemoteOps

Managed Operations Squads

Pre-trained remote associates managing daily clerical workflows, QA reconciliation, and exceptions with guaranteed continuity.

- ✓ Daily Clerical Execution & Ticket Handling
- ✓ Student Fee & Payment Reconciliation
- ✓ Continuous Quality Assurance & Data Audits
- ✓ Edge-Case & Escalation Support Handling
- ✓ Real-Time Attendance & Activity Auditing
- ✓ End-of-Day Multi-Branch Ops Reporting
- ✓ 100% Guaranteed Workflow Continuity

### PILLAR 03

#### SkillWave

Workforce Upskilling

Tailored corporate training programs and continuous adoption audits ensuring your staff master internal tools.

- ✓ Custom Step-by-Step SOP Digital Playbooks
- ✓ High-Impact Micro-Video Training Modules
- ✓ 1-on-1 & Team Live Coaching Sessions
- ✓ Zero-Resistance On-Ground Tool Adoption
- ✓ Continuous Staff Competency & SOP Audits
- ✓ Standardized New Hire Onboarding Flows
- ✓ Quarterly Operations Refresher Training

### PILLAR 04

#### ManagedIT

Fractional IT & Security

Enterprise Google Workspace administration, DNS security, and Frappe Cloud multi-tenant infrastructure management.

- ✓ Google Workspace & Domain Administration
- ✓ Frappe Cloud Multi-Tenant Server Hosting
- ✓ DNS Hardening, SPF, DKIM & DMARC Security
- ✓ Corporate Domain & Email Protection
- ✓ Granular Role-Based Access Controls
- ✓ Automated Cloud Backups & Data Redundancy
- ✓ 24/7 Security Governance & Uptime Oversight

## The OmmNoMi Operational Flywheel

✓ 100% Interconnected Stability

### 1. BUILD

#### AutomateFlow

Custom ERP & apps tailored around exact SOPs.

### 2. OPERATE

#### RemoteOps

Trained squads handle execution, QA & exceptions.

### 3. ADOPT

#### SkillWave

Staff upskilling ensures zero tool resistance.

### 4. SECURE

#### ManagedIT

24/7 cloud governance & enterprise security.

Every component reinforces the other so your company never suffers operational downtime or single-point failure.

## Proven Impact Across Real-World Operations

Tangible outcomes engineered across international academies, field research, and enterprise operations.

### International Martial Arts Academy (Singapore & Australia)

**CROSS-BORDER MULTI-COMPANY ERP**

#### OPERATIONAL CHALLENGE

9 physical branches operating across 2 countries (Singapore & Australia) with separate currencies (SGD/AUD), distinct GST regulations (9% SG, 10% AU), student attendance, and cross-branch billing complexities.

#### OMMNOMI SOLUTION & IMPACT

Engineered a multi-company Frappe ERP with localized GST compliance, automated recurring sales invoicing, branch student attendance tracking, and strict role permissions preventing cross-company data leakage.

✓ 100% Tax & GST Compliance (SG & AU)   ✓ Automated Invoicing Across 9 Branches   ✓ Zero Data Leakage Across Entities

### Multilingual Enterprise Field Survey & Research Engine

**DYNAMIC APPSHEET ARCHITECTURE**

#### OPERATIONAL CHALLENGE

Distributed field teams required dynamic questionnaire generation, multi-language support (English/Hindi/Regional), and offline mobile sync in remote rural operating areas.

#### OMMNOMI SOLUTION & IMPACT

Architected dynamic AppVariables-driven survey engines with action-grid navigation, offline mobile caching, automated photo capture, and instant cloud sync to Google Sheets and relational databases.

✓ 100% Offline Mobile Capability   ✓ Dynamic Multilingual Questionnaires   ✓ Automated Export & Reporting

### Automated Attendance Tracking & Financial Reconciliation

**ZERO-LATENCY OPERATIONS**

#### OPERATIONAL CHALLENGE

Manual check-in logs, un-reconciled student fee payments, and manual payroll calculations creating administrative overhead and billing reconciliation delays.

#### OMMNOMI SOLUTION & IMPACT

Deployed automated attendance synchronization, instant webhook notifications, automated customer payment matching, and centralized branch reporting dashboards.

✓ Real-Time Attendance Synchronization   ✓ Automated Invoice & Payment Matching   ✓ Centralized Branch Oversight

## How We Partner With You Today

Flexible, transparent engagement models engineered for zero operational downtime.

| ENGAGEMENT MODEL                                         | SCOPE OF EXECUTION                                                                                       | DELIVERY TIMELINE       | DELIVERABLE                |
|----------------------------------------------------------|----------------------------------------------------------------------------------------------------------|-------------------------|----------------------------|
| <b>Full Custom Build</b><br>Turnkey Development          | End-to-end bespoke Frappe ERP or AppSheet ecosystem engineered around your exact SOPs.                   | <b>3 – 6 Weeks</b>      | <b>Turnkey Launch</b>      |
| <b>System Modernization</b><br>Process Refactoring       | Migrating fragmented spreadsheets into real-time relational cloud databases with automated sync.         | <b>1 – 3 Weeks</b>      | <b>Zero Data Latency</b>   |
| <b>RemoteOps Retainer</b><br>Dedicated Operations        | Pre-trained remote associates handling daily clerical execution, QA reconciliation, and ongoing support. | <b>Monthly Retainer</b> | <b>100% Ops Continuity</b> |
| <b>Managed IT &amp; Security</b><br>Fractional Oversight | Google Workspace governance, DNS security, email deliverability, and Frappe Cloud management.            | <b>Ongoing Retainer</b> | <b>99.99% Uptime</b>       |

### The OmmNoMi Operator Assurance

#### Zero White Space Gap

We deliver what is necessary for operational perfection, even if unasked.

#### First-Principles Logic

Every system is engineered from the ground up around your exact business DNA.

#### Direct Founder Access

100% leadership accountability with direct access to our core developers.

### Complimentary 2-Year Systems Health Check

Book a free 30-minute operational audit with our founders to review your workflows and receive an actionable modernization roadmap.
