

**TO WHOMSOEVER IT MAY CONCERN****WORK EXPERIENCE LETTER – DEEPIKA GAUTAM**

This is an official Work Experience Letter verifying that **Deepika Gautam** has completed **1.5 years of professional experience** as an **Associate** with **OmmNoMi Automation LLP**, operating out of our Head Office at **Mahunag, Mandi, Himachal Pradesh, India**.

During her tenure of 1.5 years with the organization, Deepika has functioned as a core team member contributing across digital media production, instructional course architecture, Learning Management System (LMS) operations, and enterprise no-code workflow automation. She has consistently demonstrated high technical diligence, disciplined execution, self-directed learning agility, and strict adherence to **OmmNoMi** engineering and pedagogical quality standards.

Her key roles, project deliverables, and operational contributions included:

- **Educational Content & Video Production:** Key contributor to script-to-screen multimedia editing workflows, transforming academic curricula and instructional scripts into engaging video lessons for international client engagements, including **Golden Sparrow LLC (USA)**. Collaborated on AI-accelerated video workflows using tools such as Google Vids, NotebookLM, and Eleven Labs under structured pedagogical styling guidelines (e.g., papercraft diorama aesthetics).
- **LMS & Course Management (GyanEasy / Frappe LMS):** Led curriculum structuring for atomized, micro-learning sprint lessons (10–15 minute modules) derived from NCERT educational textbooks. Managed course deployments on **GyanEasy.in** powered by the Frappe LMS ecosystem, overseeing lesson uploads, video embedding, chapter traceability, and scenario-based assessments across 30+ educational chapters.
- **Workflow Automation & No-Code Solutions:** Supported operational tasks on **AppSheet**, executing application maintenance, bug testing, schema QA, and Google Workspace integrations. Consistently logged task workflows and synchronous updates within internal operational systems (**EmpireNoMi**).

Her core technical toolset spans **Frappe LMS & Frappe Framework**, **Google Vids**, **NotebookLM**, **Eleven Labs**, **AppSheet**, **Google Workspace**, and **Raven Workspace**. Her work directly advanced key production milestones for **GyanEasy (Phase 1 & 2)** and client-facing deliverables.

Throughout her service, Deepika has exhibited exemplary integrity, collaborative spirit, and dedication, reflecting **OmmNoMi's** organizational values of efficiency, empathy, and excellence. Her professional conduct and character have consistently been of the highest standard.

We highly recommend Deepika Gautam for future career pursuits in instructional systems design, educational multimedia production, LMS administration, and workflow automation. We wish her continued growth and excellence in all her future endeavors.

Yours sincerely,

For OmmNoMi Automation LLP,
