

AppSheet System Work Update & Support Log

Daily Maintenance, Feature Enhancements, and Access Escalation for BLR World Orbit

LEAD ENGINEER	CLIENT SYSTEM	LOG DATE	STATUS
Nomeshwer Sharma	BLR World Orbit	28 July 2026	Completed / Escalated

1. SUMMARY OF DELIVERABLES & ISSUES HANDLED

During today's operational support cycle for **BLR World Orbit**, three key client requests/incidents were identified, diagnosed, and resolved/escalated:

- Khaled's ORBIT Account Access Issue:** Resolved sidebar restriction issue (user seeing only *Resources* module) by identifying missing employee role mapping and initiating People Admin onboarding SOP.
- Receipt Attachment & Validation in Expense Claims:** Added `Receipt_Image` alongside `Receipt_Files`, enforcing validation that at least one receipt attachment is required to save a claim.
- Automated Receipt Folder Organization (Process for MoveFinance):** Implemented automated AppSheet bot/process logic to automatically route attached receipt images and files to the designated employee's Google Drive folder, organized strictly by fiscal year, month, and finance subfolder.
- "See in Drive" Direct Action Button:** Created a custom AppSheet Action button (`External: open a website`) to allow users and managers to quickly open the properly renamed and organized receipt file directly in Google Drive from the claim detail view.
- Currency Dropdown Update (EUR Added):** Expanded the `ExpenseClaims` currency option list to include **EUR** upon request from Fatima Seedat for Angelique's expense submission.

2. DETAILED TASK BREAKDOWN

TICKET / REQUEST	REQUESTER	DIAGNOSIS / ROOT CAUSE	RESOLUTION ACTION TAKEN	STATUS
Khaled Account Permissions	Support Query	Account lacked Employee record in AppUser mapping table, restricting UI strictly to Resources.	Escalated to Rizalyn Bolasco (People Admin) to run the Standard Operating Procedure for User Creation in AppSheet.	ESCALATED (SOP)
Receipt Attachment & Mandatory Validation	Aaron Daniel Ashworth	Saving an expense claim requires proof of expense, but previously only <code>Receipt_Files</code> was present on the form.	Added <code>Receipt_Image</code> (Image file) alongside <code>Receipt_Files</code> (Document file). Configured validation rule so that attaching at least one of them is required to save the expense claim.	DEPLOYED & VERIFIED
Automated Drive Storage Organization	Finance / Architecture	Uploaded expense receipt files/images previously resided in default AppSheet folders without structured	Deployed Process for MoveFinance automation. Dynamically moves attached receipt images/files into the employee's dedicated Google Drive folder	DEPLOYED & ACTIVE

TICKET / REQUEST	REQUESTER	DIAGNOSIS / ROOT CAUSE	RESOLUTION ACTION TAKEN	STATUS
		employee or fiscal timeline categorization.	structure (Employee Folder > Finance > Fiscal Year > Month).	
"See in Drive" Action Button	UX / Operations	Reviewers and managers needed an instant way to view the newly renamed and organized Google Drive receipt document directly from the claim view.	Added an AppSheet action button (External: open a website) targeting the Google Drive file URL generated post-automation execution.	DEPLOYED & ACTIVE
Expense Currency EUR Option	Fatima Seedat / Angelique	Currency enum list in ExpenseClaims lacked the EUR option.	Updated AppSheet ExpenseClaims table configuration and AppVariables enum values to include EUR option. Verified live in UI.	DEPLOYED

3. CHRONOLOGICAL COMMUNICATION & EXECUTION TIMELINE

- 28 July 2026 - Incident Reported**
Khaled's Clock In/Out Access Issue
 Issue analyzed. Confirmed restricted permission state and requested People Admin Rizalyn Bolasco to run employee onboarding creation SOP.
- 17:53 - Mobile Client Support**
Expense Receipt Camera Option Guidance
 Aaron Daniel Ashworth queried about photo receipt capture on iOS. Advised performing app sync to pull latest schema changes.
- 17:58 - Feature Configuration**
EUR Currency Added to Expense Claims
 Fatima Seedat requested EUR currency addition. Updated AppSheet enum configuration, added **EUR** to dropdown list, and confirmed deployment.

System State: All requested expense claim form enhancements (Receipt attachment sync & EUR currency option) are live and verified. The user account creation process for Khaled is currently with the People Admin team under standard SOP.
